

# BIOMAC

BIOMAC is a 100% organic fertilizer designed for injection in the plant root zones. It is an excellent driver for nutrition and strengthening of all kinds of crops, covering from vegetables, grains, pastures, fruit and ornamentals. BIOMAC has been evaluated and approved according to the organic standards of NOP, JAS MAFF and the EU to be used as an supply for organic production.

Biostrato guarantees the percentage composition, as well as the benefits derived from its application to crops, however, it is not responsible for the damages that may be generated in case of not complying with the recommendations set out in this technical sheet.

- Improves and promotes root development.
- Improves the availability and release of nutrients in the soil.
- Improves the porosity and structure of the soil.
- Sodium control.
- Stimulates root exudates naturally.

## COMPOSITION

### MACROELEMENTS

Nitrogen	2.17 %
Phosphorus	5.30 %
Potassium	0.36 %
Calcium	4.21 %
Magnesium	0.029 %

### MICROELEMENTS

Sodium	0.16 %
Copper	0.04 %
Iron	0.05 %
Manganese	0.02 %
Liquid Humus from Californian Red Worm	14.8 %
Humic Acids	17 %
Fulvic Acids	3.2 %
Conductivity (Ms/cm)	0.97

## DOSE

### VEGETABLES

200 ml for each liter of mother mix water. weekly application.

### FRUIT TREES

8 liters in 200 liters of water on the foliage, trunk and base or neck of the root

### STRAWBERRIES,

### BLUEBERRY,

### RASPBERRY

### AND BLACKBERRY

50 to 100 liters per hectare, weekly applications, can be mixed in nutrient solution.

### GRAINS AND CEREALS

100 liters per hectare. Throughout the cycle, dosed in 3 applications.

### ORNAMENTAL

80 ml of liquid per liter of water in weekly irrigation and foliage.

## PREPARATION METHOD OF THE PRODUCT AND APPLICATION

- Break the guarantee seal and open the package
- Dilute **BIOMAC** according to your application and dose per number of plants
- Calibrate the application equipment

## INCOMPATIBILITY

None known to date but it is recommended to make previous tests before mixing the product

For prevention, do not mix with agrochemicals

## pH 7.6
